Revision History

| Version | Date | Updated By | Approved By | Details of Amendment |
|---------|-------------|-------------|-----------------|---|
| 2.00 | 30 Nov 2016 | J Dale | Colin Lewis | Updated for GAD and DCLG reporting requirements for LGPS pension fund transactions for cashflows from 1st April 2017 onwards |
| 2.01 | 05 Oct 2017 | J Dale | Colin Lewis | Member address changed to Mandatory to conform with the Pensions Regulator Codes of Practice. |
| 2.02 | 08/11/2017 | J Dale | Colin Lewis | Amended the name of Data item 37 to Auto-Enrolment Qualifying Earnings and replaced the example file |
| 3.00 | 07/06/2018 | K Pridgeon | J Dale/E Fisher | Rebrand |
| 3.01 | 01/08/2018 | Colin Lewis | Colin Lewis | Description of data item 48 was incorrect. Now fixed. |
| 3.20 | 02/11/2018 | J Dale | C Lewis | Telephone number change |
| 3.30 | 29/04/2018 | J Dale | C Lewis | Suspension renamed to Employment Break and reason codes added. Auto-Enrolment Qualifying Earnings retired. Service examples added to FAQ's. Part-Time Hours Effective Date notes amended. What's Changed section added. |
| 3.40 | 12/07/2019 | J Dale | C Lewis | Suspension Reason renamed Employment Break reason. Notes updated. |
| 3.50 | 19/12/2019 | J Dale | P Stocks | Data item 48 (Employers Contributions), max number of characters corrected. |

1 Purpose of this guide

This guide will provide you with a comprehensive understanding of the i-Connect payroll extract file specification, including each of the data items that must be submitted to your administering authority every pay period.

Data items are mandatory, conditional or optional for i-Connect data processing. Your administering authority may insist on some of the conditional or optional data items being provided.

1.1 Further reading

If you are an employer:

- Refer to the i-Connect User Guides for Employers for further information regarding the i-Connect service.
 - Logon
 - · Reporting
 - Onboarding
 - Online Return
 - · File Upload

If you are an administering authority:

• Refer to the User Guides for Employers listed above, and the i-Connect User Guide for Administering Authorities.

Please email support@i-Connectdata.co.uk if you have not received copies of the documentation.

2 Preparation

2.1 Record matching

i-Connect will automatically match, where possible, each separate post on your payroll system to a corresponding record on your administering authority's pensions administration system (referred to throughout this document as 'the target system'). The matching process uses employees' National Insurance numbers, together with a unique payroll identifier.

2.1.1 Unique payroll identifier

A unique payroll identifier must be present for each payee/post on the payroll extract file. This key can be a combination of fields held on the payroll system, for example, payroll reference, employee reference and post number. There are three 12-character fields available on the payroll extract file to output the unique payroll identifier:

- Payroll Reference 1 (Data Item 2)
- Payroll Reference 2 (Data Item 3)
- Payroll Reference 3 (Data Item 4)

These three fields provide you and your administering authority with the flexibility to create a unique payroll identifier in a single field or across multiple fields.

The examples in the table below use the following information:

National Insurance Number: AA123123A

• Payroll Reference: 555444

• Post Number: 144-543

| Unique Payroll Identifier | National Insurance Number | Payroll Reference 1 | Payroll Reference 2 | Payroll Reference 3 |
|------------------------------|---------------------------------|------------------------|------------------------|------------------------|
| Single Field | AA123123A | 555444144543 | | |
| Multiple Fields (2) | AA123123A | 555444 | 144-543 | |
| Multiple Fields (3) | AA123123A | 555444 | 144 | 543 |

Each of the three payroll reference fields corresponds to a specific field on the target system. Your administering authority will provide you with their specific field-level matching requirements as part of the i-Connect implementation process; please contact them as soon as possible, if this information has not been provided.

The selected matching method must be consistent for all records on the payroll extract file.

3 Extract file creation preparation

3.1 File format

All payroll extract files uploaded into i-Connect must be saved as comma-separated-value (CSV) files. Files not in this format will be rejected during the upload process.

Fields containing commas must be embedded within a set of double quotes (commonly referred to as 'text qualifiers'), to maintain data integrity. For example, a data entry in Address Line 1 (data item 15), with a comma present, would be output as:

"Dun Roamin, Dun Campin"

3.2 Header row

A header row must be present on the first row of each payroll extract file, to describe the i-Connect data items. Failure to include a header row will result in the first record on the file being omitted from processing, as i-Connect always assumes the first row is the header.

A sample header row is:

NI NUMBER, PAY REF 1, PAY REF 2, PAY REF 3, ADD LINE 1, ADD LINE 2, ADD LINE 3, ADD LINE 4, ADD LINE 5, POSTCODE, FILLER 1, TELEPHONE N UMBER, MOBILE NUMBER, WORKS PLACE NAME, WORKS ADD LINE 1, WORKS AD D LINE 2, WORKS ADD LINE 3, WORKS ADD LINE 4, WORKS ADD LINE 5, WO RKS POSTCODE, WORKS EMAIL ADDRESS, DATE OF LEAVING, PAYROLL PERIO D END DATE, ADDITIONAL CONTRIBUTIONS 1, ADDITIONAL CONTRIBUTIONS 2, EMPLOYMENT BREAK START, EMPLOYMENT BREAK END, FILLER 2, EMPLOY MENT BREAK REASON, SURNAME, FORENAMES, GENDER, DOB, MARITAL STATUS, TITLE, FILLER 3, FILLER 4, ANNUAL PENSIONABLE SALARY, PENSIONABLE PAY, EFFECTIVE DATE, DATE JOINED PENSION SCHEME, JOB TITLE, PART T IME HOURS EFFECTIVE DATE, PART TIME HOURS, PART TIME INDICATOR, W HOLE TIME EQUIVALENT HOURS, EMPLOYEES MAIN SECTION CONTS, EMPLOY ERS CONTS, SCHEME CONT RATE, FILLER 5, FILLER 6, MAIN SECTION CUMU LATIVE PEN PAY, 5050 SECTION CUMULATIVE PEN PAY, FTE FINAL PAY, C UMULATIVE EMPLOYEES MAINSECTION SCHEME CONTS, CUMULATIVE EMPLOY ERS SCHEME CONTS, REASON FOR LEAVING, CUMULATIVE SCAPCS, CUMULATI VE APCS, EMPLOYEES 5050 CONTS, CUMULATIVE EMPLOYEES 5050 CONTS, S CAPCs, APCs

The column names do not have to be identical to those above, but the field ordering must be the same as the order specified in section 5.

3.3 Duplicate records

All records on the i-Connect payroll extract file must be unique. Uploaded files will be rejected if there are one or more records containing duplicate combinations of National Insurance Number and the unique payroll identifier.

3.4 Other payroll extract file considerations

- The order of the data items must match the order specified in the file layout.
- The payroll period end date (data item 23) must be the same on all records.
- Blank rows must not be present in the payroll extract file.
- Ensure all leading zero values remain if the file has to be converted to CSV format.
- Ensure all transactions processed after the payroll cut-off date are included on the i-Connect payroll extract file report. This must include new starters, leavers, post changes and so on.
- Part-time hours must be pro-rated for term-time employees.
- Negative values are indicated by a minus '-' character at the beginning of the data field (for example, '-115.64').

4 Uploading data

4.1 Preparing to upload data

Please read the i-Connect User Guide for Employers and ensure that you can answer 'Yes' to the following questions before attempting to upload any data into i-Connect:

- Is the file in the correct format?
- Have you used the correct payroll-period-end date?
- Are all the records unique?
- Has your administering authority provided you with a username?
- Have you completed the i-Connect registration process?

4.2 Processing times

The following table provides approximate timings for processing payroll extract files in i-Connect. The first stage, 'File Upload/Employment Check', checks the structure of the file, validates the data and checks whether any payees have been deleted from the target system by the administering authority. The second stage, 'Target System Update', uploads the detected events to the administering authority's target system:

| Number of Records | Approx. Processing Times (m | ins) |
|-------------------|----------------------------------|----------------------|
| | File Upload/ Employment Check | Target System Update |
| 1,000 | 15 | 20 |
| 2,000 | 20 | 40 |
| 5,000 | 30 | 100 |
| 7,500 | 50 | 150 |
| 10,000 | 70 | 200 |
| 15,000 | 100 | 300 |
| 20,000 | 120 | 400 |

Note: Processing times can vary, depending on Internet speeds and the number of employers using the i-Connect service.

5 i-Connect payroll extract file specification

| Item | Data Item | Description | Maximum Number of Characters | Mandatory/Optional |
|----------|--|--|------------------------------------|------------------------|
| 1 | NATIONAL INSURANCE NUMBER | National Insurance (NI) number of the employee | 9 | Mandatory |
| Example: | AB123456C | | | |
| Notes: | 2-4) to identify the correct record of | mber. The NI number is used in conjunction with one or mon the administering authority's target system. Please cont National Insurance number, as this is a mandatory field on . | act your administ | ering authority if any |
| 2 | PAYROLL REFERENCE 1 | An additional unique identifier. Generally, this is the | 12 | Conditional* |
| Example: | 134-0547 | employee's payroll number with the current employer. It should be a unique identifier for each post in your organisation. | | |
| Notes: | Please enter a unique identifier to match the post to the correct target system record, for example, Payroll Reference Number. Please contact your administering authority to confirm whether this unique identifier should be placed in Payroll Reference 1, Payr Reference 2 or Payroll Reference 3. If this field is not used as a unique identifier, it can be used to store additional payroll identification information for new starters, such as Post or Contract Number. *Mandatory if the administering authority specifies this field as a unique identifier | | | |

Version 3.50 - External Page 9 of 39

| Item | Data Item | Description | Maximum Number of Characters | Mandatory/Optional |
|----------|---|--|------------------------------------|--------------------------|
| 3 | PAYROLL REFERENCE 2 | An additional unique identifier. Generally, this is the | 12 | Conditional* |
| Example: | TY0123456 | employee's payroll number with the current employer. It should be a unique identifier for each post in your organisation. | | |
| Notes: | Please contact your administering a Reference 2 or Payroll Reference 3 If this field is not used as a unique i such as Post or Contract Number. | match the post to the correct target system record, for examination to confirm whether this unique identifier should. I dentifier, it can be used to store additional payroll identifien without the confidence of the confidence o | be placed in Payr | oll Reference 1, Payroll |
| 4 | PAYROLL REFERENCE 3 | An additional unique identifier. Generally, this is the | 12 | Conditional* |
| Example: | 07 | employee's payroll number with the current employer. It should be a unique identifier for each post in your organisation. | | |
| Notes: | Please enter a unique identifier to match the post to the correct target system record, for example, Payroll Reference Number. Please contact your administering authority to confirm whether this unique identifier should be placed in Payroll Reference 1, Pay Reference 2 or Payroll Reference 3. If this field is not used as a unique identifier, it can be used to store additional payroll identification information for new starters, such as Post or Contract Number. *Mandatory if the administering authority specifies this field as a unique identifier | | | |

Version 3.50 - External Page 10 of 39

| Item | Data Item | Description | Maximum Number of Characters | Mandatory/Optional | |
|--|--|--|------------------------------------|--------------------|--|
| 5 | ADDRESS LINE 1 | Address Line 1 of the correspondence address of the | 30 | Mandatory | |
| Example: | Riverview | employee | | | |
| Notes: | Please enter the first address line of where the employee lives. Upper- and lower-case characters are valid. Valid characters are A to Z, hyphen (-) and apostrophe ('). If any of the address lines (1 to 5) is present for the employee, a minimum of two address lines must be provided. | | | | |
| 6 | ADDRESS LINE 2 | Address Line 2 of the correspondence address of the | 30 | Mandatory | |
| Example: | 23 Upper Riverbank | employee | | | |
| Notes: | Please enter the second address line of where the employee lives. Upper- and lower-case characters are valid. Valid characters are A to Z, hyphen (-) and apostrophe ('). If any of the address lines (1 to 5) is present for the employee, a minimum of two address lines must be provided. | | | | |
| 7 | ADDRESS LINE 3 | Address Line 3 of the correspondence address of the | 30 | Optional | |
| Example: | Hale Barns | employee | | | |
| Notes: | | of where the employee lives. are valid. Valid characters are A to Z, hyphen (-) and apost s present for the employee, a minimum of two address | | ovided. | |
| 8 | ADDRESS LINE 4 | Address Line 4 of the correspondence address of the | 30 | Optional | |
| Example: | Altrincham | employee | | | |
| Notes: Please enter the fourth address line of where the employee lives. Upper- and lower-case characters are valid. Valid characters are A to Z, hyphen (-) and apostrophe ('). If any of the address lines (1 to 5) is present for the employee, a minimum of two address lines must be provided. | | | ovided. | | |

7 Frequently asked questions (FAQs)

We have compiled a list of common questions and answers below; please contact the i-Connect support desk if you have any other questions or comments relating to this guide:

1. Should I include all payees on the payroll extract file, including those employees who have previously opted out of the scheme?

Whether you include opt-outs on the payroll extract file is entirely up to you and your administering authority, and the inclusion of opt-outs should be agreed during the implementation stage.

If you do decide to include opt outs, the difference between the 'Opt Out Date' (data item 50) and the 'Date Joined Scheme' (data item 41) must be less than three months. This is because i-Connect will create new starter records on your administering authority's target system for each opt-out, irrespective of whether they ever existed on the target system, and a date of less than three months will ensure that the starter records are created with a status of 'Opt Out'.

2. What should I do if an Opt Out re-joins the scheme?

You must remove the 'Opt Out Date' from data item 50 and insert an 'Opt In Date' in data item 51. The 'Opt In Date' should remain on the payroll extract file each month.

3. How do I record service?

Examples have been included below:

Part Time Employee

| Part Time Hours Effective Date | Part Time Hours | Part Time Indicator | Whole Time Equivalent Hours |
|---|-----------------|---------------------|-----------------------------|
| 01/05/2012 | 28.75 | Υ | 37 |
| Whole Time Employee | | | |
| Part Time Hours Effective Date 01/05/2012 | Part Time Hours | Part Time Indicator | Whole Time Equivalent Hours |
| Casual Employee | | | |
| Part Time Hours Effective Date | Part Time Hours | Part Time Indicator | Whole Time Equivalent Hours |
| 19/11/2014 | | С | |

Payroll Extract File Specification Guide

4. How do I record part-time hours for casual employees?

Part-time hours should be left blank if the employee is casual. Your administering authority will ask you for a summary of the total hours worked as part of their yearend process.

5. How do I pro-rata the hours for term-time-only employees?

Part-time hours must be pro-rated if the employee is term-time only. Two examples are provided below. Please check with your administering authority to ensure this complies with their own guidelines for pro-rating term-time service:

• Example 1 – Part-time, term-time only:

Jennifer works for 12 hours per week during term time (full-time equivalent hours are 37). Her contract is for 39 weeks per year, plus 4.4 weeks' holiday, totalling 43.4 weeks. The following calculation can be used to pro-rata her hours:

$$43.4 \text{ weeks}/52 \text{ weeks x } 12 \text{ hours} = 10.02$$

Jennifer's part-time hours should be supplied as 10.02 and her whole-time equivalent hours as 37.00.

• Example 2 – Whole-time, term-time only:

Colin works whole-time during term time (37 hours per week). His contract is also for 39 weeks per year, plus 4.4 weeks' holiday, totalling 43.4 weeks. The following calculation can be used to pro-rata his hours:

```
43.4 \text{ weeks}/52 \text{ weeks x } 37 \text{ hours} = 30.88
```

Colin's part-time hours should be supplied as 30.88 and his whole-time equivalent hours as 37.00.

6. What happens if there is more than one part-time hours change in a single pay period?

i-Connect can process only one part-time hours change in a single pay period. The latest hours change in the pay period, together with the effective date, should be output to the patrol extract file. Any earlier changes within the same pay period should be communicated via a separate report directly to the administering authority.

7. Why do you ask for Auto Enrolment Qualifying Earnings?

The auto enrolment qualifying earnings were used in conjunction with the date of birth for auto-enrolment reporting purposes. This functionality was withdrawn in May 2019.

Payroll Extract File Specification Guide

8. Why are payroll extract files with duplicate records rejected?

This is because your administering authority records separate data on the target system for each active post on the payroll system, and there are one or more records containing duplicate combinations of National Insurance Number and the unique payroll identifier on the payroll extract file.

9. My payroll system does not store all the elements required to calculate Full-Time Equivalent Pay (Data Item 54), for employees who joined the scheme before 1 April 2014 (England and Wales) or 1 April 2015 (Scotland/Police and Fire); are there any alternative values I can use?

You should discuss the use of alternative values for data item 54 with your administering authority.

10. Why have salary validation errors been detected?

This is because an annual salary is in data item 38, but an effective date has been omitted from data item 40, or vice versa.

11.One or more of my payees do not have a National Insurance number; what should I do?

You will be unable to include the member on the payroll extract file until a National Insurance number is provided, as this is a mandatory field on your administering authority's target system. They may be happy to accept a temporary National Insurance number for pension administration purposes.

12. How do I record additional contributions?

Cumulative additional voluntary contributions should be output to 'Additional Contributions 1' (data item 24), the cumulative values of all other additional contributions should be added together and output to 'Additional Contributions 2' (data item 25).

Employer contributions cannot be stored on the target system.

13. What type of employment break should I notify to the administering authority?

You should notify your administering authority only of any unpaid breaks in service, for example, strike, maternity or paternity breaks.

14. How long should leavers remain on the payroll extract file?

i-Connect

Payroll Extract File Specification Guide

Leavers can remain on the payroll extract file indefinitely, although it is recommended that they be purged on a regular basis. Generally, leavers remain on the payroll extract file for an additional pay period after the leaver notification, to ensure that any arrears of pay (usually for claims-based employees), are processed via i-Connect.

15. How do I record assumed pensionable pay?

This should be included in pensionable pay (data item 39) and the main and/or 50/50 section cumulative pay (data items 52 and 53).

8 About this version

Sometimes we need to make changes to our specification due to circumstances outside of our control, such as legislation changes. If this happens we will make sure we minimise disruption and give you plenty of time to start using the new payroll extract file specification.

| Version | Date | Data Item | What's changed? |
|---------|---|--------------|---|
| 3.50 | 19/12/2019 | 48 | Max number of characters has been changed from 5 to 10 to correct a documentation error. |
| 3.40 | 12/07/2019 | 29 | Suspension Reason renamed Employment Break reason. Notes updated. |
| 3.30 | 29/04/2019 | 26 | SUSPENSION has been renamed to EMPLOYMENT BREAK. The SMP INDICATOR has been renamed |
| | | 27 | EMPLOYMENT BREAK REASON. A new list of |
| | employment 29 existing custo employment | | employment break reasons has been added, however existing customers can still use 'Y' to indicate the employment break reason was due to maternity or paternity leave, to avoid changing any existing extract |
| 3.30 | 29/04/2019 | 37 | AUTO ENROLMENT QUALIFYING EARNINGS has changed from mandatory to conditional. The data item only needs to be populated for new starters. |
| 3.30 | 29/04/2019 | 43 | The PART-TIME HOURS EFFECTIVE DATE has been renamed to PART-TIME/WHOLE-TIME HOURS EFFECTIVE DATE. The data item should be completed for part-time and whole-time members. |
| 3.30 | 29/04/2019 | 45 | The PART-TIME INDICATOR data item has been updated to include part-time indicators used for employees in the modified and retained sections of the Firefighters' Pension Scheme. |
| 3.30 | 29/04/2019 | | The FAQ section has been amended to include part-time hours examples. |
